

The **Council for Responsible Nutrition (CRN)**<sup>1</sup>, a Washington, D.C.-based trade association representing dietary supplement manufacturers and suppliers, seeks a **Vice President or Director** to increase the awareness of the research base that supports the safety and benefits of dietary supplements and to use that science as the basis for influencing and responding to regulatory and legislative initiatives, activities and media coverage of dietary supplements.

### **Education and Experience**

Doctor of Philosophy in Nutrition, Pharmacology, Pharmacognosy, Toxicology, Organic Chemistry, Botany, or Natural Medicine

Minimum five years relevant experience in the field

Familiarity with current federal regulation of dietary supplements

Previous dietary supplement industry or FDA experience preferred

Excellent written communication (with some history of publication in peer reviewed journals) and excellent oral presentation skills

Ability to multi-task and work in collegial, fast-paced, fluid environment as a team player with other staff and with member company representatives

Salary: mid \$100,000s, commensurate with experience and publication record.

*To apply, send cover letter, resume and references to: Gerry Satterfield, The Council for Responsible Nutrition, 1828 L Street, N.W., Suite 900, Washington, D.C. 20036, fax to (202) 204-7980; or email to [gsatterfield@crnusa.org](mailto:gsatterfield@crnusa.org). No phone calls please.*

---

<sup>1</sup> Council for Responsible Nutrition is the leading trade association representing dietary supplement manufacturers and ingredient suppliers. CRN companies produce a large portion of the dietary supplements marketed in the United States and globally. Our member companies manufacture popular national brands as well as the store brands marketed by major supermarkets, drug store and discount chains. These products also include those marketed through natural food stores and mainstream direct selling companies. Our 65+ manufacturer and supplier members agree to adhere to voluntary guidelines for manufacturing, labeling and marketing and CRN's Code of Ethics.
