THE JOURNAL OF NUTRITION

CONTENTS Volume 138 Number 8 August 2008

TI Role of Vitamin A in Determining Nephron Mass, and Possible Relationship to Hypertension

AU P. V. Bhat, and D. Manolescu

TI Oxidative DNA Damage is Prevented by Extracts of Olive Oil, Hydroxytyrosol and Other Phenolic Compounds in Human Blood Mononuclear Cells and HL60 Cells

AU R. Fabiani, P. Rosignoli, A. De Bartolomeo, R. Fuccelli, M. Servili, G. Montedoro, and G. Morozzi

TI Tissue Distribution of the Flavonol Quercetin in the Pig After Long-Term Dietary Supplementation

AU J. Bieger, R. Cermak, R. Blank, V. de Boer, P. C. Hollman, J. Kamphues, and S. Wolfram

TI Dietary Arginine Supplementation during Early Pregnancy Enhances Embryonic Survival in Rats

AU X. Zeng, F. Wang, X. Fan, W. Yang, B. Zhou, P. Li, Y. Yin, G. Wu, and J. Wang

TI Supplemental Sodium Butyrate Stimulates Different Gastric Cells in Weaned Pigs

AU M. Mazzoni, M. Le Gall, S. De Filippi, L. Minieri, P. Trevisi, J. Wolinski, G. Lalatta Costerbosa, J. Lallès, P. Y. Guilloteau, and P. Bosi

TI Lycopene Absorption in Human Intestinal Cells and in Mice Involves Scavenger Receptor Class B Type I (Sr-Bi), but not Niemann Pick C 1 Like 1 (Npc1l1)

AU M. Moussa, J. Landrier, E. Reboul, O. Ghiringhelli, C. Comera, X. Collet, K. Frohlich, V. Bohm, and P. Borel

TI Early Administration of Probiotics Alters Bacterial Colonization and Limits Diet-Induced Gut Dysfunction and Severity of Necrotizing Enterocolitis in Preterm Pigs

AU R. H. Siggers, J. Siggers, M. Boye, T. Thyman, L. Molbak, T. Leser, B. B. Jensen, and P. T. Sangild

TI An Oil Mixture with Trans 10, Cis 12 Conjugated Linoleic Acid Increases Markers of Inflammation and In Vivo Lipid Peroxidation Compared to Cis 9, Trans 11 Conjugated Linoleic Acid in Postmenopausal Women¹.

AU T. Tholstrup, M. Raff, E. M. Straarup, P. Lund, S. Basu, and J. M. Bruuns

TI Non-Alcoholic Fatty Liver Disease is Associated with Increased Plasma Endotoxin, Plasminogen Activator Inhibitor 1 and Fructose Intake in Human

AU S. Thuy, R. Ladurner, V. Volynets, S. Wagner, S. Strahl, A. Konigsrainer, K. Maier, S. Bischoff, and I. Bergheim

TI Gender and Body Size Affect the Response of Erythrocyte Folate to Folic Acid Treatment

AU R. M. Winkels, I. A. Brouwer, P. Verhoef, F. V. van Oort, J. Durga, and M. B. Katan

TI Calcium Requirements of Growing Rats are Comparable Whether Based on Bone Mass, Structure or Biomechanical Strength

AU J. R. Hunt, C. D. Hunt, C. A. Zito, J. P. Idso, and L. K. Johnson

TI Food Intake Patterns and Cardiovascular Risk Factors among Iranian Women

AU A. Esmailzadeh, and L. Azadbakht

TI Low Energy Density Diets were Associated with Favorable Nutrient Intake Profile and Adequacy in a Representative Population of Free-Living Elderly Men and Women

AU H. Schroder, J. Vila, J. Marrugat, and M. Covas

TI Higher Prevalence of Vitamin D Deficiency is Associated with Migrant Background among Children and Adolescents in Germany

AU B. Hintzpeter, C. Scheidt-Nave, M. J. Muller, L. Schenk, and G. B. Mensink

TI Weekly may be as Efficacious as Daily Folic Acid Supplementation in Improving Folate Status and Lowering Serum Homocysteine Concentrations in Guatemalan Women

AU P. H. Nguyen, R. Grajeda, P. Melgar, J. Marcinkevage, R. Flores, and R. Martorell

TI Predominant Breastfeeding from Birth to Six Months is Associated with Fewer Gastrointestinal Infections and Increased Risk for Iron Deficiency among Infants

AU E. C. Monterrosa, E. A. Frongillo, E. M. Vasquez-Garibay, E. Romero-Velarde, L. M. Casey, and N. D. Willows

TI Pregnancy and Lactation Hinder Growth and Nutritional Status of Adolescent Girls in Rural Bangladesh

AU J. H. Rah, P. Christian, A. Shamim, U. T. Arju, A. B. Labrique, and M. Rashid

TI Retinoic Acid Decreases Adherence of Myeloid Dendritic Cells and Increases Production of Matrix Metalloproteinase-9

AU D. E. Lackey, S. L. Ashley, A. L. Davis, and K. A. Hoag

TI Early Supplementation of Prebiotic Oligosaccharides Protects Formula-Fed Infants against Infections during the First 6 Months of Life

AU D. J. Grathwohl

TI Reply letter to Dr. Dominik J. Grathwohl

AU S. Arslanoglu, G. E. Moro, and G. Boehm

TI Restoration of Body Energy Reserves during Refeeding in Rats is Dependent on Both the Intensity of Energy Restriction and the Metabolic Status at the Onset of Starvation

AU J. Robin, F. Decrock, G. Herzberg, E. Mioskowski, Y. Le Maho, A. Bach, and R. Grosoclas

TI Regular Users of Supermarkets in Greater Tunis Have a Slightly Improved Diet Quality.

AU S. Tessier, P. Traissac, B. Maire, N. Bricas, S. Eymard-Duvernay, J. El Ati, and F. Delpeuch

TI Introduction to the Proceedings of the Fourth International Scientific Symposium on Tea and Human Health

AU L. Arab, and J. B. Blumberg

TI Non-Gallated Compared to Gallated Flavan-3-Ols in Green and Black Tea are More Bioavailable

AU S. M. Henning, J. J. Choo, and D. Heber

TI Bioavailability of Polyphenon E Flavan-3-ols in Humans with an Ileostomy

AU C. Auger, Y. Hara, and A. Crozier

TI Tea Is the Major Source of Flavan-3-Ol and Flavonol in US Diet

AU W. O. Song, and O. K. Chun

TI The Relationship between Green Tea Consumption and Cardiovascular Disease as Evidenced by Epidemiological Studies

AU S. Kuriyama

TI Tea, Flavonoids and NO-Mediated Vascular Reactivity

AU D. Grassi, A. Aggio, L. Onori, G. Croce, S. Tiberti, C. Ferri, L. Ferri, and G. Desideri

TI A Review Of the Epidemiological Evidence on Tea, Flavonoids and Lung Cancer

AU I. C. Arts

TI Green Tea Consumption is Associated with Decreased DNA Damage among GSTM1 Positive Smokers Regardless of their hOGG1 Genotype

AU I. A. Hakim, H. Chow, R. B. Harris, and I. U. Ali

TI L-Theanine and Caffeine in Combination affect Human Cognition as Evidenced by Oscillatory Alpha-Band Activity and Attention Task Performance

AU S. P. Kelly, M. Gomez-Ramirez, J. L. Montesi, and J. J. Foxe

TI Targeting Multiple Neurodegenerative Diseases Etiologies with Multimodal-Acting Green Tea Catechins

AU S. A. Mandel, T. Amit, L. Kalfon, L. Reznichenko, and M. B. Youdim

TI Tea Consumption may Improve Biomarkers of Insulin Sensitivity and Risk Factors for Diabetes

AU K. S. Stote, and D. J. Baer
