## **THE JOURNAL OF NUTRITION CONTENTS Volume 138 Number 12 December 2008**

TI Modulation of C Reactive Protein, Tumor Necrosis-Alpha and Adiponectin by Diet, Exercise and Weight Loss

AU M. J. Puglisi, and M. Fernandez

TI Application of Systematic Review Methodology to the Field of Nutrition

AU A. H. Lichtenstein, E. A. Yetley, and J. Lau

TI Commentary: AMPing Down Leucine Action in Skeletal Muscle

AU T. G. Anthony, and J. C. Anthony

TI Chlorogenic Acids from Green Coffee Extract are Highly Bioavailable in Humans

AU A. Farah, M. Monteiro, C. M. Donangelo, and S. Lafay

TI Biotinylation of Histones Represses Transposable Elements in Human and Mouse Cells and Cell Lines, and in *Drosophila Melanogaster*

AU Y. Chew, J. T. West, S. J. Kratzer, A. M. Ilvarsson, J. C. Eissenberg, B. J. Dave, D. Klinkebiel, J. K. Christman, and J. Zempleni

TI A 19-Base Pair Deletion Polymorphism in Dihydrofolate Reductase is Associated with Increased Unmetabolized Folic Acid in Plasma and Decreased RBC Folate.

AU R. D. Kalmbach, S. F. Choumenkovitch, A. M. Troen, P. F. Jacques, R. D'Agostino, and J. Selhub

TI Redox Regulation of Protein Tyrosine Phosphatase 1B by Manipulation of Dietary Selenium Affects the Triglyceride Concentration in Rat Liver

AU A. S. Mueller, S. D. Klomann, N. M. Wolf, S. Schneider, R. Schmidt, J. Spielmann, G. I. Stangl, K. Eder, and J. Pallauf

TI 9-Cis Retinoic Acid Reduced 1 $\alpha$ , 25-Dihydroxycholecalciferol-Induced Renal Calcification by Altering Vitamin K-Dependent gamma-Carboxylation of Matrix Gla Protein in A/J Male Mice

AU X. Fu, X. Wang, H. Mernitz, R. Wallin, M. K. Shea, and S. L. Booth

TI Ultra High Temperature Treatment, but Not Pasteurization, Impacts the Postprandial Kinetics of Milk Proteins in Humans

AU M. Lacroix, C. Bon, C. Bos, J. Leonil, R. Benamouzig, C. Luengo, J. Fauquant, D. Tome, and C. Gaudichon

TI Structurally Different Wheat-Derived Arabinoxyloligosaccharides Have Different Prebiotic and Fermentation Properties in Rats

AU V. Van Craeyveld, K. Swennen, E. Dornez, T. Van de Wiele, M. Marzorati, W. Verstraete, Y. Delaedt, O. Onagbesan, E. Decuypere, J. Buyse, B. De Ketelaere, W. F. Broekaert, J. A. Delcour, and C. M. Courtin

TI Maternal Dietary L-Carnitine Supplementation Improves Fetal Carnitine Status and Stimulates Carnitine Palmitoyltransferase (CPT) and Pyruvate Dehydrogenase Complex (PDHC) Activities in Swine

AU X. Lin, K. Brown, J. Woodworth, K. Shim, B. Johnson, and J. Odle

TI Dietary Reference Intakes for Zinc May Require Adjustment for Phytate Intake Based Upon Model Predictions

AU K. M. Hambidge, L. V. Miller, J. L. Westcott, and N. F. Krebs

TI Lycopene Biodistribution is Altered in 15, 15'-Carotenoid Monooxygenase Knockout Mice

AU B. L. Lindshield, J. L. King, A. Wyss, R. Goralczyk, C. Lu, N. A. Ford, and J. W. Erdman Jr.

TI Dietary Folate, Methionine, Riboflavin and Vitamin B-6 and Risk of Sporadic Colorectal Cancer

AU S. de Vogel, V. Dindore, M. van Engeland, R. A. Goldbohm, P. A. van den Brandt, and M. P. Weijenberg

TI 3, 3'-Diindolylmethane and Genistein Decrease the Adverse Effects of Estrogen in LNCaP and PC-3 Prostate Cancer Cells

AU S. Smith, D. Sepkovic, L. Bradlow, and K. J. Auborn

TI Dietary Cod Protein Reduces Plasma C-Reactive Protein in Insulin-Resistant Men and Women

AU V. Ouellet, S. J. Weisnagel, J. Marois, J. Bergeron, P. Julien, R. Gougeon, A. Tchernof, B. J. Holub, and H. Jacques

TI Supplementing Suckling Rats with Whey Protein Concentrate Modulates the Immune Response and Ameliorates Rat Rotavirus-Induced Diarrhea

AU F. Perez-Cano, S. Marin-Gallen, M. Castell, M. Rodriguez-Palmero, M. Rivero, C. Castellote, and A. Franch

TI Fasting and Postprandial Remnant-Like Particle Cholesterol Concentrations in Obesity Are Associated with Plasma Triglycerides, Insulin Resistance and Body Fat Distribution

AU A. M. van Hees, W. H. Saris, G. M. Dallinga-Thie, G. B. Hul, A. J. Martinez, J. Oopert, V. Stich, A. Astrup, P. Arner, T. I. Sorensen, and E. E. Blaak

TI Genetic Influence on Dietary Intake in Twin Studies

AU A. Worre-Jensen, B. L. Heitmann, K. O. Kyvik, and T. I. Sorensen

TI Soy Protein Intake Has Sex-Specific Effects on the Risk of Metabolic Syndrome in Middle-Aged and Elderly Chinese

AU A. Pan, O. H. Franco, J. Ye, W. Demark-Wahnefried, X. Ye, Z. Yu, H. Li, and X. Lin

TI Frequency and Type of Seafood Consumed Influence Plasma (n-3) Fatty Acid Concentrations.

AU H. Chung, J. A. Nettleton, R. N. Lemaitre, R. G. Barr, M. Y. Tsai, R. P. Tracy, and D. S. Siscovick

TI Birthplace is Associated with More Adverse Dietary Profiles in US Versus Foreign Born Latino Adults

AU K. J. Duffey, P. Gordon-Larsen, G. X. Ayala, and B. Popkin

TI Excessive Body Iron Stores Are Not Associated with Risk of Coronary Heart Disease in Women

AU Q. Sun, J. Ma, N. Rifai, O. H. Franco, K. M. Rexrode, and F. Hu

TI Adiposity and Pathogen Exposure Predict C-Reactive Protein in Filipino Women

AU T. W. McDade, J. Rutherford, L. Adair, and C. Kuzawa

TI Dietary Diversity is a Good Predictor of the Micronutrient Density of the Diet of 6-23-Month-Old Children in Madagascar

AU M. M. Moursi, M. Arimond, K. G. Dewey, S. Treche, M. T. Ruel, and F. Delpeuch

TI Energy from Beverages is on the Rise among Mexican Adolescents and Adults

AU S. Barquera, L. Hernandez-Barrera, M. L. Tolentino, J. Espinosa, S. Ng, J. A. Rivera, and B. M. Popkin

TI Zinc Modifies Association between Nasopharyngeal *S. Pneumoniae* Carriage and Risk of Acute Lower Respiratory Infection among Young Children in Rural Nepal

AU C. L. Coles, J. B. Sherchand, S. K. Khatry, J. Katz, S. C. LeClerq, L. C. Mullany, and J. Tielsch

TI Dietary Supplementation of Rural Gambian Women during Pregnancy Does Not Affect Body Composition in the Offspring at 11-17 Years

AU S. A. Hawkesworth, A. M. Prentice, A. J. Fulford, and S. E. Moore

TI Hypovitaminosis D is Common among Pulmonary Tuberculosis Patients in Tanzania, but Not Explained by the Acute Phase Response

AU H. Friis, N. Range, M. L. Pedersen, C. Molgaard, J. Changalucha, H. Krarup, P. Magnussen, C. Soborg, and A. B. Andersen

TI Combined Glutamine and Arginine Decrease Proinflammatory Cytokine Production by Biopsies from Crohn's Patients in Association with Changes in NF-kappaB and p38 MAPK Pathways

AU S. Leclaire, A. Hassan, R. Marion-Letellier, M. Antonietti, G. Savoye, C. Bole-Feysot, E. Lerebours, P. Ducrotte, P. M. Dechelotte, and M. Coeffier

TI Dopamine D2 Receptor Expression is Altered by Changes in Cellular Iron Levels in PC12 Cells and Rat Brain Tissue

AU E. L. Unger, J. A. Wiesinger, L. Hao, and J. L. Beard

TI Early-Life Iron Deficiency Anemia Alters Neurotrophic Factor Expression and Hippocampal Neuron Differentiation in Rats

AU P. V. Tran, E. S. Carlson, S. J. Fretham, and M. K. Georgieff

TI Cognitive Impairment in Folate-Deficient Rats Corresponds to Depleted Brain Phosphatidylcholine and is Prevented by Methionine without Lowering Homocysteine  
AU A. M. Troen, W. Chao, N. A. Crivello, K. E. D'Anci, B. Shukitt-Hale, D. E. Smith, J. Selhub, and I. H. Rosenberg

TI Docosahexaenoic Acid and the Aging Brain  
AU W. J. LUKIW, and N. G. BAZAN

TI Arachidonic Acid and the Brain  
AU S. I. Rapoport

TI (n-6) and (n-3) Polyunsaturated Fatty Acids and the Aging Brain: Food for Thought  
AU J. Whelan

TI The Magnitude of Iron Deficiency in Young Children in Low-Income Countries and New Approaches for its Prevention  
AU C. Lutter

TI Setting the Stage for Child Health and Development: Prevention of Iron Deficiency in Early Infancy  
AU C. M. Chaparro

TI Why Iron Deficiency is Important in Infant Development  
AU J. L. Beard

TI Iron Metabolism, Malaria and Other Infections: What Is All the Fuss About?  
AU A. M. Prentice

TI Research Needed to Strengthen Science and Programs for the Control of Iron Deficiency and its Consequences in Young Children  
AU R. J. Stoltzfus

TI Retraction
